

VERITECH FC FILTER

The FC filter is the ultimate high efficiency primary grease filter for your kitchen. The filters are proven to remove 94.6% of grease before it enters the extraction system. Adapter plates required for retro-fit into existing canopies.

Benefits include:

- Significantly reduces duct cleaning requirements
- Exceptional fire barrier
- Reduce insurance premiums
- Grease capture 94.6% Assists TR19 compliance
- UL1046 & UDI2052 accredited Assists TR19 compliance

Specification:

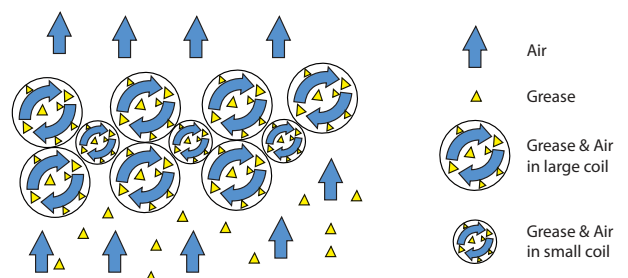

- Volume Flow Rate (m³/s) up to 0.28 per filter
- Face Velocity (m/s) 4.2 (optimal)
- Pressure Drop (pa) 195
- Weight (kg) up to 4.55
- Material Grade 304 Stainless Steel
- Noise (dB) 50

How does it work?

The patented Veritech filter Matrix was designed to apply the four main principles of filtration, namely:

- Condensation
- Inertial separation
- Impingement
- Settling,

See Diagram - >

1. Air and Grease go into the Veritech filter
2. Air and Grease circulate around the coils within the filter
3. 94.9% of Grease is trapped and collected in the drip tray
4. Cleansed air comes out of the back and the Veritech filter
